INSURANCE CO.

Branch Office, 25 *and* 26 *Bryan Bl'k*,

CHICAGO, ILL.

Purely Mutual, Equitable, Progressive and Secure. Twenty-seven years of Business Experience.

Assets, - $21,000,000!

Safely invested and rapidly increasing.

Within the last quarter of a century the business of this Company has embraced the acceptance of over ninety thousand men as members, the receipt of over $38,000,000 in premiums, the payment of nearly $8,500,000 in losses to the representatives of deceased members, and dividends actually returned (not promised) amounting to over $6,000,000 to the assured. At the same time the assets have accumulated and offer absolute security. The present business of the Company is represented in the receipt of ten thousand applications for Policies per annum, and an annual income of over $7,000,000.

All desirable forms of Insurance are granted on the most practical plans, embodying the well-known non-forfeiture feature originated by this Company in 1860.

In addition to the above a new feature has recently been introduced by this company called the "Tontine Investment System," which combines the advantages of the Tontine Annuity and Life Insurance. Upon this new plan it is confidently expected that the dividends will far exceed those now declared by any other Company.

Further particulars in regard to this and all other plans of Insurance will be cheerfully furnished upon application to

A LITTLE FUN WITH HOPKINS.

Some years ago a new fire company was organized at Reading, and the members one evening thought they would have a little innocent fun at the expense of Hopkins, their President. They decided to rush round with the engine to Hopkins' house after dark, to throw up their ladders, pull out their hose, climb on his roof and scare him with the belief that his dwelling was on fire. But that very day Hopkins moved out of the house, and a Presbyterian clergyman moved in, without the company being aware of the change. So about 8 o'clock the humorists dashed out, and went through all the movements, getting on the roof and splashing water around, and creating a terrific disturbance generally. A rival company, noticing what was going on, also hurried to the scene, and without understanding the joke, attached their hose to a plug, smashed in the front windows and began to empty a two-inch stream on the family of that Presbyterian clergyman. They squirted into all the rooms, split up the window shutters with an axe, broke down the front door, ran out the furniture, tore off the shingles and bawled through trumpets until the hired girl had convulsions on the stairs. The first company tried to explain, but the newcomers thought an effort was being made to get them out of the way, and a fight ensued, and presently firemen were sliding off the roof, and pelting down the chimneys, and bleeding over the entry carpet, and having boisterous encounters with spanners and brass horns on the stairs. And the next morning that Presbyterian devine and his family moved out. They said the place seemed to be too animated and sensational for a quiet domestic circle. They wanted a house where there was more calmness and peace; where they could have more security for their privacy and pianos, and for their front doors and shingles and peace of mind and window-sashes.—*Max Adeler.*

SUBLIMELY RIDICULOUS.

Though it is but a step from the ridiculous to the sublime, it is surprising how few can take it, well-directed as their efforts would seem to be. An unhappy Frenchman has lately made a very creditable attempt. This gentleman, who is described as having a "finely-strung poetic sentiment," being unfortunate in some literary ventures, and in a certain *affaire de cœur*, determined to destroy himself. He had already made during his short life four unsuccessful attempts. Resolving to succeed at last, he provided himself with a revolver, a rope, a stake, a bottle of poison, and a box of lucifer matches, and proceeded to a cliff which overhung the sea. He there drove the stake into the ground, fastened one end of the rope to it, deliberately adjusted the other end round his neck, took the revolver into his hand, set fire to his clothes, swallowed the poison, and, swinging himself off—he was sensitive to pain—pulled the trigger. The instrument exploded, but the ball, only grazing his ear, cut the rope, and the baffled suicide was precipitated into the sea. The salt water, combined with the violent shock, not unnaturally destroyed the effects of the poison, and he was ignominously saved from drowning by a passing fishing-smack. He concluded that Providence had intended him for something great, but died three days after from inflammation of the lungs, contracted from exposure to cold and damp. That this "fine poetic character" should have miscalculated the designs of Providence is not so surprising, perhaps, as the fact that he could not manage in some way to live for effect when he had tried so hard to die for it.

GLASS CLOTHING.

Recent experiments in glass-spinning have led to the discovery of a compound which affors threads surpassing in fineness even the single cocoon fibers, and apparently as soft and elastic as silk. This substance has been applied to a variety of uses, but on account of the skill required in the workman, and the fatiguing character of the labor, especially to the eyes, the articles may as yet be classed as curiosities. When felted, it forms excellent material for chemical filters. It is adapted to figures for brocades, etc., and to the manufacture of clothing, ornaments, furniture covers, curtains, carpets, lace, collars, &c., and can be used in embroidering. In softness the articles approach silk, and feel like the finest woolen, while they are warmer than the latter and exceedingly light. They are comparatively free from mechanical wear, and are not affected by light, heat moisture, nor acids, and, by reason of their incombustibility, are peculiarly adapted to ladies' garments. The annexed prices of a few articles will indicate the present stage of the manufacture: Cuffs, $1,15; collars, 50 cents to $2,50; watch chains, 25 cents to $1, ladies' hats complete, $4.75 to $26,00.

The Cincinnati *Commercial* does not believe there has been a case of genuine Asiatic cholera in the United States this season, and the Memphis doctors are disagreed as to the character of the disease there.

10,000 Cash Gifts paid in Full.

$100,000 for only Ten Dollars.

ENOUGH of the 100,000 tickets issued for the THIRD GRAND GIFT CONCERT, in aid of the Public Library of Kentucky, having been sold to insure a full drawing, and the wish having been universally expressed that the 10,000 cash gifts offered should be drawn in full and paid in full without any scaling down, as heretofore, the management, with the concurrence of the trustees, have determined to allow ninety days more for the sale of the remnant of tickets left on hand. The concert and distribution advertised for April 8, is therefore postponed to Tuesday, July 8, 1873, on which day, and no other, they will positively and unequivocally take place in Public Library Hall, Louisville, Ky.

At this grand concert the following cash gifts will be distributed by lot and paid in full to the ticket holders who draw them:

Total, 10,000 gifts, all cash		$500,000

The money to pay all these gifts in full is now upon deposit in the Farmers' and Drovers' Bank of Louisville, and set aside for that purpose, and can only be used for that purpose, as will be seen by the following certificate of the Cashier:

OFFICE OF
FARMERS' AND DROVERS' BANK,
LOUISVILLE, KY., April 7, 1873.

This is to certify that there is in the Farmers' and Drovers' Bank, to the credit of the Third Grand Gift Concert, for the benefit of the Public Library of Kentucky, five hundred thousand dollars, which has been set apart by the managers to pay the gifts in full, and will be held by the bank and paid out for this purpose, and this purpose only.

R. S. VEECH, Cashier.

The party, therefore, who holds the ticket drawing the capital gift will get $100,000 in greenbacks, and so of the $50,000 gift, the $25,000, the $20,000, the $10,000, the $5,000, and all the other gifts, 10,000 in number, amounting to $500,000.

The remnant of unsold tickets will be furnished to those who first apply (order accompanied by the money always having preference over agents) at the following prices: Whole tickets, $10; halves, $5; quarters, $2,50; 11 whole tickets for $100; 56 for $500; 113 for $1,000; and 575 for $5,000. No discount on less than $100 worth of tickets at a time.

The concert and distribution of gifts will begin at 6 o'clock on Tuesday morning, July 8, in Public Library Hall and the following will be the order of proceedings: 1st. Music by orchestral band 2d. Placing of tags (one for each ticket sold) in large wheel. 3d. Placing of gifts in small wheel. 4th. Music by orchestral band. 5th. Explanatory remarks by President. 6th. Drawing of first half of gifts. 7th. Music by orchestral band 8th. Drawing of last half of gifts. 9th. Placing of large wheel with tags in hands of committee appointed by audience. 10th. Grand orchestral concert.

The music on this grand occasion will be the best that can be procured, and the gentlemen who count and place the tags and gifts in the wheels and superintend the drawing and keep the record of the drawn numbers will be chosen from the best known and most trustworthy citizens of the State. All will be so conducted as to be a perfect guaranty against complaint from any just source.

The payment of gifts will begin on Saturday, July 12, at 9 o'clock a. m. Tickets drawing gifts must be presented at room No. 4, Public Library building, where cash, checks upon the Farmers' and Drovers' Bank of Louisville, or sight drafts upon the Fourth National Bank of New York at the option of the holder, will be given for the tickets. All gifts not called for in six months from the drawing will be turned over to the Library fund.

For full particulars send for circulars.

DECATUR, ILLINOIS:

Tuesday Evening, June 24.

THE Ohio Constitutional Convention has adopted a section which leaves open to women offices that are appointive. This action does not meet the approval of the Cincinnati *Gazette*, and it gives strong reasons why it should not be adopted. The *Gazette* says: This is meant for a sop to appease the noble rage of the female mind, but it is an insult to woman, and it places the convention in ridiculous inconsistency. It allows that officers who have appointing power may appoint women, while the people are not allowed to elect women. And although the intent is only to open the subordinate offices to woman, it in fact allows her to be placed in any vacancy which the Governor fills by appointment, even to the judgships and to the Supreme bench.

A DELIGHTFUL SUMMER ROUTE.—Just now, when nearly everybody is thinking of flying to some cool retreat, the series of excursions projected by the Grand Trunk Railway of Canada possess a peculiar interest. This railroad affords one of the most delightful summer routes on the continent, passing as it does along the banks of that lordly stream, the St. Lawrence, and the company is now offering rare inducements to persons desiring to make a trip over the line. Round trip tickets, from Chicago to Ogdensburg and return, $32; to Montreal and return, $34, to Portland and return, $38. Other trips can be made by this route, on equally advantageous terms. Having passed over this line three years ago, and fully realizing all its beauties, we are glad to learn that some of our neighbors are thinking of availing themselves of a brief respite from business to make the trip

FROM WISCONSIN.

OCONOMOWOC, JUNE 17, 1873.

Without exception this is the most beautiful country I have seen in the West.

Thirty-five lakes within a radius of thirteen miles; and they are not stagnant pools, but fresh spring supplied sheets of water: good, grand shores, affording fine facilities for bathing, are well stocked with a variety of fish of good quality and easily coaxed to take the hook. The roads and drives around and about these lakes are excellent, being graveled and very smooth and even.

A little steamer, capable of carrying one hundred persons, is always ready to carry parties or persons around "La Bllee Lake," upon which I had the pleasure of a two-hours' ride last evening. Sail and row boats are numerous, and abundant room for their use. Good hotels, charging reasonable prices, and livery ditto, make this a desirable resort for seekers of pleasure or health.

R. LIDDLE.

PRESCRIPTION FOR CHOLERA.—The following prescription for the cholera was adopted by the College of Physicians in Philadelphia in 1866. It is regarded by many as probably the very best remedy that can be used for the disease in its incipient stages:

"Laudanum two ounces; spirits of camphor two ounces, tincture of capsicum half ounce; essence of peppermint two ounces; Hoffman's anodyne, two ounces. If the anodyne cannot be readily obtained substitute sulphuric æther, half the quantity. Mix thoroughly, and shake well every time it is used. Give or take from ten to twenty-five drops, according to age, condition and violence of attack. Repeat every twenty minutes until relief is obtained. In a desperate case take a tablespoonful at once Take it in an equal quantity of water, and lie on the back quietly, or in an easy sitting posture, with the back supported, till it has full opportunity to work. Carry a small vial in the pocket, with a few lumps of white sugar, upon which to drop it, to be used in sudden emergencies."

ONE of the most deliberate atrocities that ever took place in Chicago occurred last evening, on Noble street. A Frenchman named John Knouse loaded an old musket with seven slugs, and coolly waited until his near neighbor, William Dennison, should appear, and then shot him down on his own doorstep. Both eyes were shot out, and five other wounds were inflicted which are almost certain to prove fatal. The would-be-murderer is now in custody and it is gratifying to know that the new jury law and the late reconstruction of the Supreme Court give a ray of hope that he will be hanged in case his victim dies.—*Chicago Journal, 23d.*

THE number of emigrants from Ireland in the year 1872 was 78,871, showing an increase of 6,777 over the number in 1871. The number of men was 46,741, an increase of 4,817, and the number of women was 32,040, an increase of 1,960 There were 11 9 per cent of the emigrants under 15 years of age; 46 8 per cent. were 15, but under 45; 37.6 per cent. were 25, but under 45, and 3.7 per cent. were 45 years old or upward.

THROUGH THE ROCKY MOUNTAINS.

Greatest "Bore" of the Age—The Monster Projected Tunnel.

From the Denver Tribune, June 11.

For some time past the Territorial papers have contained brief references to a proposed tunnel, which was to be carried through the Rocky mountains from a point near Black Hawk, and coming out near Middle Park. These items were religiously copied by the Eastern press, but the story sounded Munchausenish, the people in general were loth to believe in the mammoth enterprise.

Now, however, it is known that the project has been fully inaugurated, and that its projector is on the ground with ample means and labor to prosecute the work to completion.

From the Black Hawk *Journal* of June 13th, we obtain the following particulars regarding the proposed work:

"The tunnel will be about 12 miles long. Its greatest depth will be 6,000 feet at James' peak. It will make Middle Park readily accessible from the eastern portion of the Territory, will show what is the mineral and geological character of this section, and will tolerably extensively advertise the country as the scene of an enterprise twice as large and a hundred times as important as the Mount Cenis tunnel. Colonel Heaton will use the diamond-pointed drills, and thus not be obliged to keep in operation numerous blacksmith shops. They will be driven by machinery. And it is expected that the tunnel will progress at the rate of five feet per hour, or sixty feet per day Early next year work will commence from Middle Park.

"Already considerable work has been done. The mountain has been graded down for the face of the tunnel; a flume 1,300 feet long has been built from the creek, by which a fall of 25 feet is obtained for the purpose of turning an over-shot wheel, by means of which the tunnel is to be supplied with air; a strong levee has been built to prevent the water of the creek from overflowing and embarrassing operations in the tunnel; a large boarding house, 60x25 feet and two stories high, has been built, a substantial bridge has also been built over the creek on the road leading to the Lake Gulch country.

"The objects of the tunnel are, to afford a means of working the discovered mines rapidly and cheaply, to discover and open new veins, and to afford a track for a railway. It will strike the Bobtail first of known mines, and 400 feet below the present tunnel.

"The effects of the success of this enterprise can hardly be estimated. It may cause to pass through our section and under our mountains all, or nearly all, the trans continental travel.

"The company, by name the Sierra Madre Tunnel Company, of Colorado, have ample capital, and will push the project rapidly to completion Though the enterprise is of such magnitude as to dazzle the imagination and to stagger and bewilder the judgment, yet if the mining resources of the country are what we all believe them to be, it is not chimerical, and is sure to be a source of profit to the company and of incalculable benefit to the Territory"

One of the County Paupers on a Bender, Probably at the Expense of Dr. Cass Chenoweth.—On Sunday, when Dr. Cass Chenoweth was about to perform the trepanning operation at the County Poor Farm, of which we gave an account in yesterday's paper, he took off his coat and vest and threw them down upon the grass near where he was operating. In his vest pocket was his pocket book, containing some twelve or fifteen dollars in money and some valuable papers. On his way to town after the operation the Dr. missed his pocket book, and supposed that it had worked out of his pocket on the way either going or coming. In the hope that some person might pick it up he advertised it in yesterday's REPUBLICAN.

Sometime during the day yesterday a fellow was seen in town spending money quite freely who was known to be destitute of that commodity ordinarily, and had been hanging around the poor farm for some time. This individual was present at the operation on Sunday, and the Dr. noticed him in close proximity to his vest, but had no suspicion of anything wrong. The Dr. by some means got upon his track yesterday after he had spent all the money in his possession, and taking him in charge compelled him to go to the Dr.'s office on Merchant St., where he charged him with having taken his pocket book. The fellow seemed very much enraged at the charge and played have fits, and was finally let off, as the money was all gone, and to prosecute him would only involve the county in expense.

The Dr. has no doubt that he was the thief, as he found where he had obtained small bills for a five or ten, and he was known to be without money before. He had indulged pretty freely in beer, and was having a good time generally.

He probably would have been held to answer to the charge of stealing but for the difficulty of identifying the money. The Dr remembers having a ten dollar bill in his pocket book, and the parties where the fellow got his small bills could not remember whether it was a five or a ten that they changed. On the whole they thought it not worth while to bother with him, and so they let him go

INTERESTING TRIALS IN NEW YORK.

MORE ABOUT THE BACK PAY BUSINESS.

HONORS TO THE SHAH OF PERSIA.

The New Civil Service Rules.

WASHINGTON, June 23.—A Washington correspondent of the New York Times is attempting to discredit the recently published list of Congressmen who have covered their back pay into the Treasury by first treating it as a list of those who have refused their back pay, and then charging that it contains inaccuracies, and that the names of Ellis H. Roberts and Merriam, of New York, should be in it, and that it evidently was not compiled from official data. The fact is, the list as given was from official sources, and was entirely accurate, and since its publication has been compared by officials in the Treasury Department with an official list there, and found to agree with it, and neither of the names given above appears in it.

Mr Bingham had a consultation today with the Postmaster General, in order to make himself familiar with the views of the department in regard to the proposed new postal treaty with Japan. Upon his arrival at his post, Mr. Bingham will press negotiations for such treaty upon the authorities there.

Members of the Civil Service Board are considerably annoyed at the fact that their first rule of the revised services has not been understood. It is regarded by them as a most radical advance in the new system. It is aimed directly at the practice of members of Congress personally visiting the President or heads of departments and urging appointments to office. The rules as adopted is understood by the board and was explained in the Cabinet to prevent this, to restrict members of Congress as well as all others to filling written recommendation and that even then, in case of Congressmen in the new rule, no more weight is to be given their recommendations than to those of private individuals, except when the opinion of Congressmen is asked in writing by the official whose duty it is to make the appointments. Under this rule, as understood by the President and Cabinet, it will not be regarded as courteous for a member of Congress to appear personally before the President or head of a department to ask an appointment or recommend any one to office. This interpretation of the rule is authorized by an official, who is fully advised as to the ground intended to be covered by the rule, and the construction given to it both by the board and by the Cabinet.

WHEELING, June 23.—There was a case of cholera of a mild form in this city yesterday No fatal case yet.

WASHINGTON, June 23.—Mr. Bliss, executive officer of the board of health, states that there have been but three cases of cholera in this city this season, and they were sporadic. There is as yet no ground whatever for apprehension of epidemic cholera here.

NASHVILLE, June 23.—Thirty-seven deaths from cholera to-day against 55 yesterday, of these 29 were colored. The weather to-day is considered favorable to a decrease.

MEMPHIS, June 23.—Eight interments from cholera to-day, weather hot and dry and disease rapidly abating.

CINCINNATI, June 23.—Five deaths from cholera were reported at the health office to-day.

Advices from Portsmouth, state that this morning on the steamer Potomac, a negro deck hand died of cholera at that place.

DES MOINES, Iowa, June 23.—The Polk County Republican County Convention, on Saturday, nominated J. C. Jordan for Senator, Isaac Brandt and W. G. Madden for Representatives (all farmers), thus forestalling the Granger movement Resolutions were adopted endorsing President Grant's Administration, declaring the management of railroads as unjust, extortionate and oppressive, demanding a railroad law, that all railroad officials or persons in sympathy with railroads be excluded from the halls of legislation, condemning the giving of railroad passes to legislators and judges, demanding that railroad property be taxed as is other property; declaring that the public lands belong only to actual settlers, and that Congress should restrict patent rights so as to prevent extensive monopolies.

NEW ORLEANS, June 23.—In the case of the State vs. Melvin, McCohen and Charles R. Railey, charged with shooting with intent to kill Wm. Pitt Kellogg, was commenced at Carrollton this morning before Judge Pardes, venue having been changed from Orleans to Jeffersonian parish. The jury consists of 10 negroes and 2 white. Kellogg was present as a witness. The case is progressing to-night; the court room is crowded and much interest is manifested.

LONDON, June 23.—One of the grandest naval displays ever beheld in British waters was made to-day in honor of the Shah of Persia at Portsmouth. The town was ornamented with streamers and triumphal arches; the harbor was filled with shipping of all kinds decorated with the flags of all nations, and the shores of both sides were covered with a mass of spectators, thousands of whom came from London. The fleet was drawn up at Spithead, and consisted of forty-four vessels, the finest and largest in the British navy, comprising the entire channel squadron with numerous additions, and nearly all of the great ironclads. The Shah arrived at Portsmouth at noon. His majesty was received with cheers by the immense assemblage in and around the depot. The royal yacht Victoria and Albert, was waiting, and the Shah immediately embarked, accompanied by the Prince of Wales, Prince Albert and Czarowitch. The yacht steamed slowly out of the harbor, and on arriving in front of the fleet was greeted with salutes from the ironclads.

The Shah took a conspicuous position on the yacht surrounded by princes, and proceeded to inspect the fleet passing up and down in front of and between the lines. The yards were manned and salutes fired as the royal yacht passed. When the inspection was completed, the Victoria and Albert steamed to the front again, and the review terminated with a grand salute fired simultaneously by all the vessels in the fleet. The royal party then returned to Portsmouth, where a banquet and other festivities are now in progress.

The Shah, in conversation with Mr. Schenck, American minister, last week, regretted that the distance and want of time prevented him from visiting the United States, a country he had heard much of, and desired that his compliments should be sent to President Grant.

BROOKLYN, June 23.—An extraordinary session of the Board of Health was held yesterday evening, when the sanitary superintendent presented his report, stating that the report that several cases of yellow fever had occurred in the city was untrue, and that investigation showed that there had been no cases at all in Brooklyn The report was adopted, as also were resolutions declaring it the opinion of the board that no yellow fever exists or has existed in Brooklyn during the present season.

DETROIT, Mich., June 23.—Carrie, the daughter of Robert Everson, of Plymouth, Mich., was killed on Saturday by the explosion of kerosene, with which she was urging a fire. Her father, in endeavoring to save the girl, was burned fatally, and the mother was severely injured and will probably lose her arms

NEW YORK, June 23.—The United States circuit court was engaged to-day in empanneling a jury for the trial of Tennie Claflin and Victoria Woodhull. The Judge refused to postpone the trial in consequence of the alleged sickness of defendants.

RICHMOND, June 23.—The seconds in the Mordecai-McCarty duel were today admitted to bail of $5,000 each to apear before the grand jury on the 7th of July.

Official City and County Paper.

CITY DEPARTMENT.

...Mr. Judson Wood, of Liddle's queensware store, presented our office with a nice goblet to-day, for which he has our thanks. He warrants it not to break unless the boys get a stick in it.

..."You think I'm an old man, but I am an old war horse!" exclaimed our hoary-headed pound master when he collared DeCoursey after that gentleman (?) had knocked him down with a bludgeon.

...A Virginia paper describes a fence which is made of such crooked rails that every time a pig crawls through he comes out on the same side.

...When a man has trouble he takes to drink, but when a woman meets with a misfortune she merely goes over to her mother's and takes tea.

...A woman applied to a magistrate for a warrant against a neighbor, saying, "She called me a thief, your honor; can't I make her prove it?" "Perhaps you can," answered the urbane justice, "but if I were you I wouldn't."

...A burglar in Williamsport, Penn., after working five hours to break into a house secured a boot-jack and a box of paper collars for his trouble. The boot-jack he threw at a cat that was sitting on the back yard fence calling him names, and the collars were three sizes to small for him. He says there is but little encouragement for genius in this world, anyway.

...It is very common during the heated term to call every warm day the hottest of the season. We think this may be said in truth of to-day. The brisk breeze of yesterday is lacking, and the air is simply suffocating. "O for a lodge in some vast wilderness," where there are no snakes or toads, but plenty of lemonade and ice cream.

..Blow, ye gentle breezes, blow; but don't kick up a dust—for if you do, you know, we must either die or bust.

...Boyle, upon whom the trepanning operation was performed at the poor farm on Sunday, slept refreshingly last night. His symptoms are all favorable, and point encouragingly to complete restoration.

..."A woman from Hancock County created a commotion in Mt. Sterling last week by drinking herself drunk." The foregoing, from the Quincy Evening Call, excites our curiosity. We have witnessed the slight of hand performance of one man swallowing another; but for a woman to drink herself is a feat that we have never witnessed. We are still further puzzled by the fact of her doing this when drunk. We should think the performance of so wonderful a feat would require that the performer be duly sober.

...Our exchanges bring tidings of very hot weather from almost every direction. In some localities the drought is beginning to pinch and vegetation to wilt.

...One editor in criticising another remarked that he used more scissors than brains.

...When a wife in Turkey forgets to keep the suspender buttons sewed on her husband's trowsers she is patted on the back for half an hour with a pine board an inch thick.

...A Danbury man says there is more power for evil in a small rag carpet that has been down six months, than there is in a twelve-barrel tank of whisky.

...The heated term is upon us with all its fervor. We sweat and foam, and splurge; eat ice cream, drink soda water and "sich," and yet we sigh, "O, how hot!"

...It seems that the difficulty between the poundmaster and the man who assaulted him on Saturday is likly to involve a good many parties. Warrants are out for the arrest of about twenty boys, who it is claimed participated in the assault upon Mr. Moore. We also learn that there are likely to be some counter suits, in which Moore will be arraigned as the assaulting party. On the whole, the thing looks badly mixed at present, and when the Justices, before whom the several suits are brought, shall have given their verdict, we will have a better understanding of the matter.

...Some wretch gave out, upon the arrival of the Illinois editors in Kansas City the other day, that the "Bender family" was in town.

..The wife of the city barber at Hiawatha, Kansas, shaved eighteen gentlemen last Saturday.

...The editor of the San Francisco *Chronicle*, after stating that he has "no desire to engage in a personal controversy," proceeds to characterize the editor of a rival newspaper as "a drunken and cowardly idiot."

. Speak kindly in the morning; it lightens the cares of the day, and makes the household and all its affairs move along smoothly. Speak kindly at night, for it may be that, before dawn, some loved one may finish his or her space of life for this world, and it will be too late to ask forgiveness.

A Caution to Men Who Carry Bottles in Their Pockets.—One of our citizens who is of the opinion that he can't turn off a good day's work without a little of the ardent, and is in the habit of taking along a loaded pistol with him when he is to be gone from home through the day where he can't get any ammunition, charged his single-shooter, that has a cork for wading, and betook himself to his daily toil. It chanced that he had also in his pocket a bottle containing analine, a compound which when taken in sufficient quantities acts as a poison. As he pursued his work he began to feel the need of something to revive his flagging spirits. He drew forth from his pocket what he supposed to be his pistol charged with the genuine gun cotton, but took instead the bottle containing the poison, put it to his lips and took a swallow. He detected his mistake at once, and terribly frightened, hastened to the doctor for an antidote. That dignitary soon quieted his fears by expressing the opinion that he would experience no other difficulty from his mistake than a slight internal commotion. And so it came to pass, and he yet lives.

A Great Outporing.—It will be seen by reference to our personals to day that there is a large outporing of our citizens in different directions. Whole families are leaving on pleasure trips that are to occupy from one to six weeks. Others are planing to follow suit in a week or two. On the whole we may look for dull times in business circles for the next two months. We hope those who go in quest of business may be successful, and those who go for pleasure may get their fill, and those who go for health may return to us in full possession of that invaluable blessing.

Personal.—Mr. Geo. W. Waggoner, who has been spending a few weeks among his old friends in this city, left last night for his home in Carlisle, Pa. He thinks he may pay us another visit some time in the fall, and from here make a trip to California. George didn't tell who he is going to take along for company, but left us to exercise our yankee ingenuity at guessing.

Police Record.—Jefferson Toler was before Justice Albert yesterday on a charge of being drunk and disorderly.—Four dollars and costs satisfied the claims of offended justice.

James Daly was charged five dollars and costs by the same court, for some belligerent demonstrations towards his son.

A Straw.—We noticed a certain man's hat blow off to-day. He allowed it to take its own course, and it hauled up at the door of Hackett & Keefe's saloon.

Gone.—At noon to-day the following named persons left for Eaton Rapids, Mich., where they intend to spend "the heated term:" Mr. and Mrs. O. Powers and daughter, Miss Mary Minnis, Mrs. L. Wilkinson, Mrs. Samuel Powers and two daughters, Mrs. F. N. Ewing and daughter. The virtues of the magnetic waters at Eaton Rapids have been very highly extolled, and we trust that the invalid portion of the party may be much benefitted by their use.

Hon. A. J. Gallagher and wife will start for Colorado next week, and Mr. and Mrs. J. K. Warren will follow suit about the middle of July.

Conservator Appointed.—Uncle Joe Long, whose name is as familiar in Macon County as household words, was on Saturday adjudged to be incompetent to take charge of his property, by reason of mental imbecility, and his son-in-law, Mr. Camp, was appointed conservator. Mr. Long has been gradually losing his mental faculties for some time, and the proper care of his affairs rendered this step absolutely necessary.

A Big Contract.—One of our citizens has taken the job of keeping another one cool for the next eight weeks—the man to be cooled to adopt the directions of the cooler in every particular. The consideration is a thousand dollars, with a forfeit of the same amount in case of failure.

...Don't forget that the Universalist picnic and excursion occurs on Thursday of this week. The grove where they are to swing, and jump, and run, and cut up all sorts of innocent antics, is one of the loveliest in the State. One dollar takes you there and back, and gives you a dinner fit to grace the table of a king. All who want a day's respite from business, can't find a better place to enjoy themselves than to go with this excursion.

...Mercury stood yesterday at 95 in the shade. This is about as hot as we poor mortals like it. The prayer for rain is almost universal.

...A prudent man is like a pin; his head prevents him from going too far.

...A popular parlor magazine—A big kerosene lamp They furnish reading matter for the million.

...A somewhat wayward son of a New Hampshire deacon, who had not profited much by his father's godly counsel and example, among other pranks got into his father's boots. He declared that they did very well until in his walks he attempted to pass the church door, when to his astonishment they came to a sudden halt, and refused to budge another inch in the direction he wanted to go; and so habituated were they to entering the sacred portals that they took him in bodily despite of himself, and he was compelled to enter the church for the first time in five years.

..."I had a friend who dressed himself in ladies' clothes and called upon a celebrated fortune-teller. She did not discover the disguise, but he heard what made him very unhappy.' Here the gentleman ceased. A lady, much interested, asked, "What did the fortune teller say to him?" "Why," said the gentleman, assuming a very grave aspect, "she told him he was to marry soon, and be the mother of ten children!"

New York Hair Store.—I wish to say to the public that, owing to the loss of my health I am compelled to close business, and therefore now offer my new and well-selected stock of Hair Goods at greatly reduced prices. Please call and examine for yourselves. E. E. SHELTON,
June 16-dtf No. 8 Water st.

Masonic Picnic.—The members of the mystic order picnic to-day at Capp's Grove, Mt. Pulaski. Members of the order from other places are invited and will doubtless be present in large numbers. A large delegation of the brethren with their ladies went from this city, and this "call from labor to refreshment" will doubtless be a very enjoyable affair.

Mrs. A. McWilliams is again in the city as the agent of the Springfield Silver Plate Company. She will call upon our citizens for the purpose of collecting ware for re-plating. Many of our citizens will remember the visit of Mrs. McWilliams to our city about three years ago as the agent of the same Company, and the satisfactory manner in which work was done for those who then patronized her. Her work is guaranteed. Orders addressed to Mrs. McWilliams through the postoffice will receive prompt attention.
jun23deodtf

Special Notice.—Any of our people who are intending to leave town for a few weeks, either on business or pleasure trips, can have the DAILY REPUBLICAN sent to them, at any point they may designate, by leaving their orders at the REPUBLICAN OFFICE. Our local columns will give all the current events transpiring in the city and county, and the daily visit of our paper will post them fully as to what is going on at home.

Picnics.—We learn that an excursion party, made up of citizens of Newman, Douglas county, will arrive here to-morrow, over the I. & I. C. R. R. The company will number about 100 persons, the majority of whom never visited Decatur before. They come to see what kind of a town we have here, and we trust they will not be disappointed in their expectations.

On Thursday the M. E. Sabbath School, of Tuscola, will hold a picnic near the new railroad bridge across the Sangamon. The party will doubtless be a large one, and will have a special train on the I. & I. C. R. R. I is not improbable that the picniccers may extend their trip to Decatur in the afternoon.

Personal.—Charley Griswold of the firm of Close & Griswold has just returned from a trip to Iowa for his health. He looks very much improved, and doubtless feels well repaid for his time and money out.

Mr. William Oren with Hays & Bruce, leaves town to-night for a few weeks rest, and a visit among his friends in Pennsylvania.

Harry Zekind, formerly of this city and now of Decatur, Indiana, is in town for a few days, to see his old friends. He looks hale and hearty which indicates that Decatur is a good town to live in, in whatever state its location.

Harper's Magazine

Notices of the Press:

The ever-increasing circulation of this excellent monthly proves its continued adaptation to popular desires and needs.—Indeed, when we think into how many homes it penetrates every month, we must consider it as one of the educators as well as entertainers of the public mind, for its vast popularity has been won by no appeal to stupid prejudice or depraved tastes.—*Boston Globe.*

The character which this *Magazine* possesses for variety, enterprise, artistic wealth and literary culture that has kept pace with, if it has not led the times, should cause its conductors to regard it with justifiable complacency. It also entitles them to a great claim upon the public gratitude. The *Magazine* has done good and not evil all the days of its life.—*Brooklyn Eagle.*

The Diamond Glasses,

MANUFACTURED BY

J. E. Spencer & Co., N. Y.,

Which are now offered to the public, are pronounced by all the celebrated Opticians of the world to be the **MOST PERFECT**, natural, artificial help to the human eye ever known.

They are ground under their own supervision, from minute Crystal Pebbles, melted together, and derive their name, "Diamond," on account of their hardness and brilliancy.

THE SCIENTIFIC PRINCIPLE on which they are constructed brings the core or centre of the lens directly in front of the eye, producing a clear and distinct vision, as in the natural, healthy sight, and preventing all unpleasant sensations, such as glimmering and wavering of sight, dizziness, &c., peculiar to all others in use

They are mounted in the finest manner in frames of the best quality, of all materials used for that purpose.
